Professional address: Università di Ferrara, Dipartimento di Biologia ed Evoluzione, Sezione di Paleobiologia, Preistoria e Antropologia, Corso Ercole I d'Este 32, I-44100, Ferrara

Country: Italy

Phone number: 3804342222

e-mail: davide.delpiano88@gmail.com , davide.delpiano@student.unife.it

Graduated in 2011 at the University of Pisa with a thesis entitled "Burial remains in the neolithic of Emilia"; then he moved to Ferrara where he focused his interests on Paleolithic.

He is currently working on his master thesis about the study of the lithic assemblages of the entire levels A8 and A9 in Grotta di Fumane, characterised by discoid method.

The purpose is to reconstruct the Chaines Operatoire taking into account the different raw materials used, in order to understand better the subsistence economy and the movements of Neanderthal groups in relation to the landscape.

He participated to different excavations from Paleolithic to Middle Ages, in collaboration with Universities and private societies.

KEY WORDS

PERIOD: Middle and Upper Paleolithic

GEOGRAPHY: Italy, North region

SPECIALITY: Study of lithic assemblages

CULTURE/TECHNO-COMPLEX: Mousterian

RESEARCH TASK AT FUMANE

Study of the lithic assemblages of levels A8 and A9.
